## Example Frontend Design

Version 1.0

The frontend team

July 22, 2020

DRAFT COPY

An example frontend design doc.

# Contents

<b>1 Components</b>	<b>35</b>
1.1 mwc.notification . . . . .	35
1.1.1 mwc-new-notification-bar . . . . .	35
1.1.1.1 Sample screenshot . . . . .	35
1.1.2 mwc-notification . . . . .	35
1.1.2.1 Sample screenshot . . . . .	37
1.1.3 mwc-notification-actions-button . . . . .	37
1.1.3.1 Sample screenshot . . . . .	38
1.1.4 mwc-notification-filter . . . . .	38
1.1.4.1 Sample screenshot . . . . .	38
1.1.5 mwc-notification-list . . . . .	38
1.1.5.1 Sample screenshot . . . . .	39
1.1.6 mwc-notification-load-more . . . . .	39
1.1.6.1 Sample screenshot . . . . .	40
1.1.7 mwc-notification-top-button . . . . .	40
1.1.7.1 Sample screenshot . . . . .	40
1.2 mwc.directives . . . . .	41
1.2.1 mwc-recaptcha-box . . . . .	41
1.2.1.1 Sample screenshot . . . . .	42
1.3 mwc.network . . . . .	43
1.3.1 mwc-create-vlan-component . . . . .	43
1.3.1.1 Sample screenshot . . . . .	43
1.3.2 mwc-create-vnet-form . . . . .	44
1.3.2.1 Sample screenshot . . . . .	45
1.3.3 mwc-delete-network-with-applications-modal . . . . .	45
1.3.3.1 Sample screenshot . . . . .	46
1.3.4 mwc-deploy-nfv-instance-modal . . . . .	46
1.3.4.1 Sample screenshot . . . . .	46
1.3.5 mwc-dhcp-service-form . . . . .	46
1.3.5.1 Sample screenshot . . . . .	47

1.3.6	mwc-dhcp-service-form-container . . . . .	47
1.3.6.1	Sample screenshot . . . . .	48
1.3.7	mwc-edit-network-firewall-profile-modal . . . . .	48
1.3.7.1	Sample screenshot . . . . .	49
1.3.8	mwc-edit-vnet-properties . . . . .	49
1.3.8.1	Sample screenshot . . . . .	49
1.3.9	mwc-link-nfv-instance-modal . . . . .	49
1.3.9.1	Sample screenshot . . . . .	49
1.3.10	mwc-network . . . . .	50
1.3.10.1	Sample screenshot . . . . .	50
1.3.11	mwc-network-actions-button . . . . .	51
1.3.11.1	Sample screenshot . . . . .	51
1.3.12	mwc-network-assign-datacenters . . . . .	51
1.3.12.1	Sample screenshot . . . . .	52
1.3.13	mwc-network-assigned-datacenters . . . . .	52
1.3.13.1	Sample screenshot . . . . .	53
1.3.14	mwc-network-firewall-settings . . . . .	53
1.3.14.1	Sample screenshot . . . . .	54
1.3.15	mwc-network-firewall-settings-container . . . . .	54
1.3.15.1	Sample screenshot . . . . .	55
1.3.16	mwc-network-function-virtualization-form . . . . .	55
1.3.16.1	Sample screenshot . . . . .	56
1.3.17	mwc-network-nfv-form . . . . .	56
1.3.17.1	Sample screenshot . . . . .	57
1.3.18	mwc-network-outside-interface . . . . .	58
1.3.18.1	Sample screenshot . . . . .	59
1.3.19	mwc-network-properties . . . . .	59
1.3.19.1	Sample screenshot . . . . .	60
1.3.20	mwc-network-services-form . . . . .	60
1.3.20.1	Sample screenshot . . . . .	61
1.3.21	mwc-network-status-icon . . . . .	61
1.3.21.1	Sample screenshot . . . . .	62
1.3.22	mwc-network-table . . . . .	62
1.3.22.1	Sample screenshot . . . . .	63

1.3.23	mwc-network-usable-ip-range-form . . . . .	63
1.3.23.1	Sample screenshot . . . . .	64
1.3.24	mwc-network-vlan-action-button-items . . . . .	64
1.3.24.1	Sample screenshot . . . . .	64
1.3.25	mwc-network-vnet-action-button-items . . . . .	64
1.3.25.1	Sample screenshot . . . . .	65
1.3.26	mwc-network-vnet-properties-form . . . . .	65
1.3.26.1	Sample screenshot . . . . .	66
1.3.27	mwc-nfv-deployment-options-form . . . . .	66
1.3.27.1	Sample screenshot . . . . .	67
1.3.28	mwc-remove-nfv-instance-modal . . . . .	67
1.3.28.1	Sample screenshot . . . . .	67
1.3.29	mwc-static-binding-rules-table . . . . .	68
1.3.29.1	Sample screenshot . . . . .	68
1.3.30	mwc-unassign-vdc-modal . . . . .	68
1.3.30.1	Sample screenshot . . . . .	68
1.3.31	mwc-unlink-nfv-instance-modal . . . . .	68
1.3.31.1	Sample screenshot . . . . .	69
1.3.32	mwc-vnet-dhcp-service-properties . . . . .	69
1.3.32.1	Sample screenshot . . . . .	69
1.3.33	mwc-vnet-firewall-profile . . . . .	69
1.3.33.1	Sample screenshot . . . . .	70
1.3.34	mwc-vnet-inside-interface-properties . . . . .	70
1.3.34.1	Sample screenshot . . . . .	70
1.3.35	mwc-vnet-routing-service-properties . . . . .	71
1.3.35.1	Sample screenshot . . . . .	71
1.4	mwc.host.category . . . . .	71
1.4.1	mwc-compute-categories . . . . .	71
1.4.1.1	Sample screenshot . . . . .	72
1.4.2	mwc-delete-host-category-modal . . . . .	72
1.4.2.1	Sample screenshot . . . . .	73
1.4.3	mwc-rename-compute-category-modal . . . . .	73
1.4.3.1	Sample screenshot . . . . .	74

1.5	mwc.notification-settings . . . . .	74
1.5.1	mwc-notification-settings . . . . .	74
1.5.1.1	Sample screenshot . . . . .	75
1.5.2	mwc-notification-settings-table . . . . .	75
1.5.2.1	Sample screenshot . . . . .	76
1.6	mwc.datacenter . . . . .	76
1.6.1	application-usage-table . . . . .	76
1.6.1.1	Sample screenshot . . . . .	76
1.6.2	mwc-compute-storage-resources-table . . . . .	76
1.6.2.1	Sample screenshot . . . . .	77
1.6.3	mwc-create-datacenter . . . . .	77
1.6.3.1	Sample screenshot . . . . .	79
1.6.4	mwc-datacenter-snapshot-tab . . . . .	80
1.6.4.1	Sample screenshot . . . . .	80
1.6.5	mwc-incomplete-datacenter-modal . . . . .	81
1.6.5.1	Sample screenshot . . . . .	81
1.6.6	mwc-vdc-activity . . . . .	81
1.6.6.1	Sample screenshot . . . . .	82
1.6.7	mwc-datacenter-applications . . . . .	82
1.6.7.1	Sample screenshot . . . . .	83
1.6.8	mwc-vdc-properties . . . . .	84
1.6.8.1	Sample screenshot . . . . .	84
1.6.9	mwc-datacenter-resources-page . . . . .	85
1.6.9.1	Sample screenshot . . . . .	86
1.6.10	mwc-vdc-templates . . . . .	86
1.6.10.1	Sample screenshot . . . . .	87
1.6.11	mwc-firewall-override-properties . . . . .	87
1.6.11.1	Sample screenshot . . . . .	88
1.6.12	mwc-firewall-override-table . . . . .	88
1.6.12.1	Sample screenshot . . . . .	88
1.6.13	mwc-firewall-override-list . . . . .	88
1.6.13.1	Sample screenshot . . . . .	89
1.7	mwc.allocation . . . . .	90
1.7.1	mwc-allocation . . . . .	90
1.7.1.1	Sample screenshot . . . . .	91

1.7.2	mwc-available-resources-table . . . . .	91
1.7.2.1	Sample screenshot . . . . .	93
1.7.3	mwc-disaster-recovery-badge . . . . .	94
1.7.3.1	Sample screenshot . . . . .	96
1.7.4	mwc-disaster-recovery-panel . . . . .	97
1.7.4.1	Sample screenshot . . . . .	99
1.7.5	mwc-edit-allocation . . . . .	100
1.7.5.1	Sample screenshot . . . . .	101
1.8	mwc.settings . . . . .	101

## 1.2 mwc.directives

### 1.2.1 mwc-recaptcha-box

- ☞ class: RecaptchaBoxController
- ☞ used by:
  - mwc-login
  - mwc-create-account
  - mwc-forgot-password
  - mwc-detect-network-router-modal

### 1.2.1.1 Sample screenshot

The screenshot shows the 'Create ThinkAgile CP Account' page. At the top left is the Lenovo logo. The main title is 'Create ThinkAgile CP Account'. Below it is a section titled 'Account Information' containing fields for First Name, Last Name, Email Address, United States (+1) dropdown, Mobile Number, Password, and Confirm Password. A 'Security Questions' section follows, with three dropdown menus for Security Question 1, 2, and 3, each accompanied by an 'Answer' input field. A 'Chat' button is located next to the first security question. At the bottom is a reCAPTCHA box with French text: 'L'hôte local ne figure pas dans la liste des domaines acceptés pour la clé de ce site.' Below the reCAPTCHA are two checkboxes: one for age confirmation and another for accepting the Master Data Privacy Agreement. A third checkbox indicates agreement to the Lenovo End User License Agreement. A large blue 'Create Account' button is at the bottom right.

### 1.3.15.1 Sample screenshot

The screenshot shows a user interface for configuring Network Function Virtualization (NFV) settings. On the left, there's a modal window titled 'Manual' with instructions for manually configuring an application instance for NFV. Below it, the main configuration area is titled 'DHCP Settings'. It includes fields for 'DHCP Range' (IP range), 'DHCP Lease Time' (set to 86400 seconds), and 'Domain Name', 'Primary DNS Server', and 'Secondary DNS Server' (all optional). There's also a 'Static Binding (Optional)' section with three input fields for Hostname, MAC Address, and IP Address. An 'Add Row' button is available. On the right, a support chat window titled 'Support Chat' is open, showing a message from a customer service representative: 'Welcome! Can we help you with anything?'. The chat interface includes a message input field and standard messaging icons.

**Figure 1.15:** mwc-network-firewall-settings-container

  - ↳ form/network-nfv-form.component.ts

### 1.3.17.1 Sample screenshot

The screenshot displays a user interface for configuring network services. On the left, there's a 'Deployment' section with two options: 'Automatic' (selected) and 'Manual'. The 'Automatic' option explains that ThinkAgile CP will auto-deploy the NFV instance to provide network services. The 'Manual' option instructs the user to manually configure an application instance for NFV to provide network services, with a link to 'instructions'. A note at the bottom of this section advises matching network properties. Below this is a 'DHCP Settings' section where users can enter a DHCP range (e.g., 192.168.1.100 - 192.168.1.150), lease time (e.g., 86400 seconds), and domain names for primary and secondary DNS servers. There's also a 'Static Binding (Optional)' table with columns for Hostname, MAC Address, and IP Address, and an 'Add Row' button. On the right, a 'Support ThinkAgile CP' sidebar features a 'Support Chat' section with a message from a customer service representative: 'Welcome! Can we help you with anything?'. A text input field for messages is provided, along with icons for file attachments, email, and more.

**Figure 1.17:** mwc-network-nfv-form

### 1.3.18 mwc-network-outside-interface

#### Resources

##### Compute & Storage Resources

The screenshot shows a user interface for managing resources. On the left, there's a table for 'Compute & Storage Resources' with columns for Migration Zone, Category, CPU, and Allocated. It lists two migration zones: 'DevOpsMigrationZone' and 'QaMigrationZone'. Under 'Storage Pool', it shows 'Flash Pool 1' and 'Flash Pool 2', both connected to the 'Connected MZ'. On the right, there's a 'Support Chat' window titled 'Support ThinkAgile CP'. The chat history includes 'Chat started', 'Customer Service', and a message from the support team: 'Welcome! Can we help you with anything?'. A red box highlights the 'Compute & Storage Resources' table.

Migration Zone	Category	CPU	Allocated
DevOpsMigrationZone	> Default		2 cores
QaMigrationZone	> Cucamonga		2 cores

Storage Pool	Connected MZ
Flash Pool 1	DevOpsMigrationZone, QaMigrationZone
Flash Pool 2	DevOpsMigrationZone, QaMigrationZone

**Network Resources**

Network Name	Type	NFV Instance
Custom Vnet	VNET	Windows Application - NFV Instance
Custom Vlan	VLAN	—

**Compute Usage**

↳ /main/webapp/app/datacenter/components/vdc-instances/vdc-  
↳ instances.component.ts

#### 1.6.7.1 Sample screenshot

The screenshot shows a web-based application interface for managing VDC Instances. At the top, there is a header bar with icons for cloud, notifications, and user profile, along with a gear icon and a 'New' button. Below the header, the title 'Datacenter 1' is displayed. The main content area is titled 'VDC Instances' with a count of 2. A red box highlights the table below. The table has columns for Name, IP Address(es), CPU (cores), Memory, and Network. It lists two entries: 'Linux Application' and 'Windows Application - NF...'. The 'Linux Application' row has two green circular icons next to its name. The 'Windows Application' row has one blue square icon. To the right of the table, a 'Support Chat' window is open, showing a message from 'Customer Service': 'Welcome! Can we help you with anything?'. There is also a message from 'Support Chat' saying 'Chat started'. A text input field at the bottom of the chat window says 'Type a message here...'.

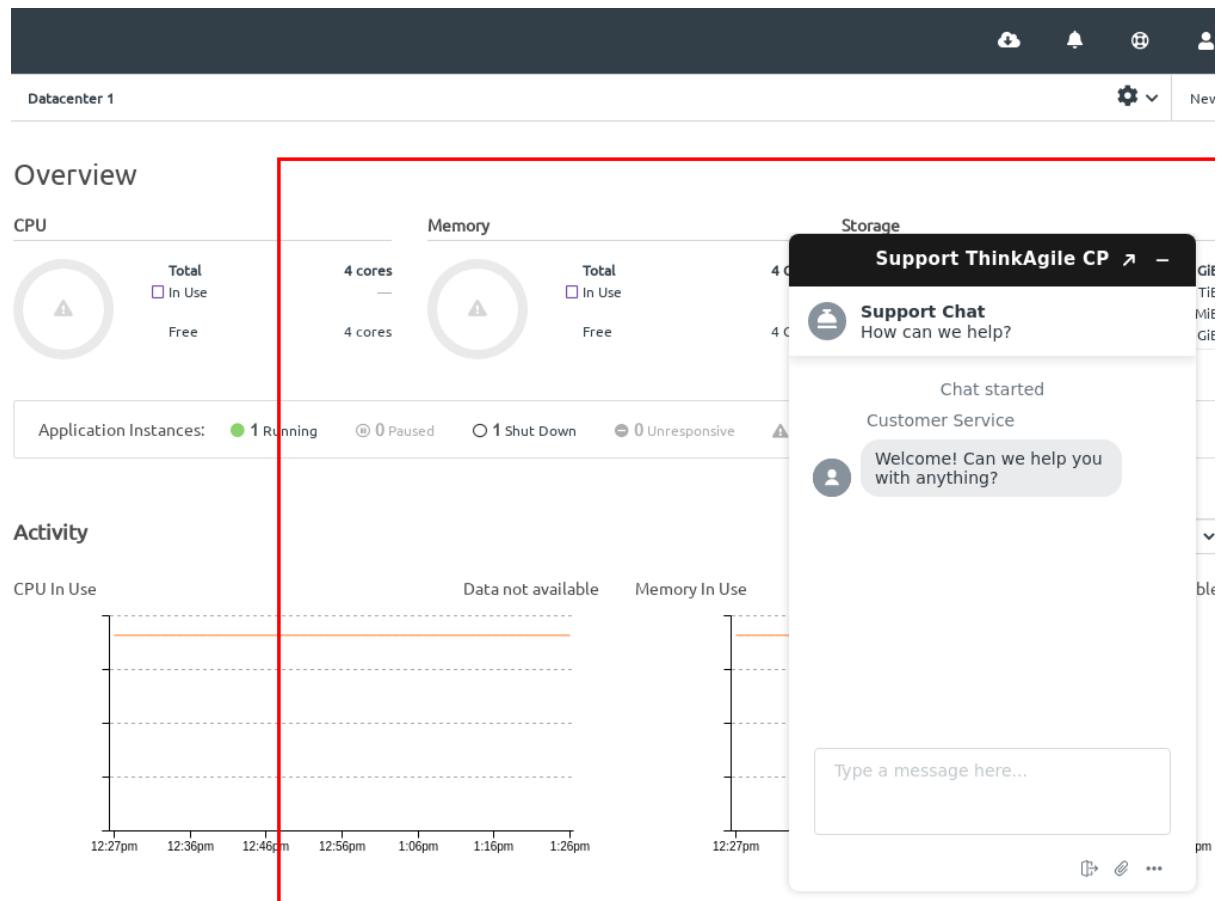

Name	IP Address(es)	CPU (cores)	Memory	Network
Linux Application	—	2	—	1 GiB
Windows Application - NF...	2.2.2.2	2	—	1 GiB

### 1.8.22.1 Sample screenshot

The screenshot shows a user management interface. At the top, there's a dark header bar with icons for cloud, bell, globe, and user. Below it, a title 'User Management' is followed by a sub-header: 'The following ThinkAgile CP users have access to this organization'. A table lists four users:

First Name	Last Name	Email Address	Role	Action
Bill	Simmons	por@aol.com	(Logged in) Infrastructure Admin	Inbox
iv	Simmons	iv@aol.com	Infrastructure Viewer	Inbox
vm	Simmons	vm@aol.com	VDC Manager	Inbox
vv	Simmons	vv@aol.com	VDC Viewer	Inbox

A red box highlights the first row of the table. To the right, a sidebar titled 'Support ThinkAgile CP' contains a 'Support Chat' section. It shows a message from a customer service representative: 'Welcome! Can we help you with anything?'. The sidebar also includes a message input field with placeholder 'Type a message here...' and a send button.

This screenshot shows the 'Edit Application Template' interface. It includes fields for 'Template Name' (linuxTemplate), 'Description' (Template with a Linux operating system), and 'Provisioning' (2 cores, Memory). A red box highlights the provisioning section. Below, the 'Application Disk and Boot Orders' section shows two storage disks. A red box highlights the disk order list. On the right, there are support and community sections.

### 1.11.4 mwc-flash-pool-activity-tab

class: FlashPoolActivityTabComponent

### 1.11.4.1 Sample screenshot

The screenshot shows a user interface for managing a Flash Pool. At the top, there are two migration zones: DevOpsMigrationZone and QaMigrationZone. Below this is a 'Storage Overview' section with the following data:

	Physical Usable Capacity	Virtual Capacity (projected)
<input type="checkbox"/> Physical Used	16 TiB 900 GiB	16 TiB 100 GiB
<input type="checkbox"/> Virtual Allocated		Virtual Allocated % 1%
<input type="checkbox"/> Virtual Used		900 GiB

Data Saving Ratio: —

Application Instances: 0 Running, 0 Paused, 0 Shut Down, 0 Unresponsive

Below the overview is a 'Storage Usage Distribution' chart, which is currently empty.

On the right side of the interface, there is a 'Support Chat' window open with the following messages:

- Support ThinkAgile CP ➔** (Message from Support)
- Support Chat** (Message from Support)
- How can we help?
- Chat started
- Customer Service
- Welcome! Can we help you with anything?

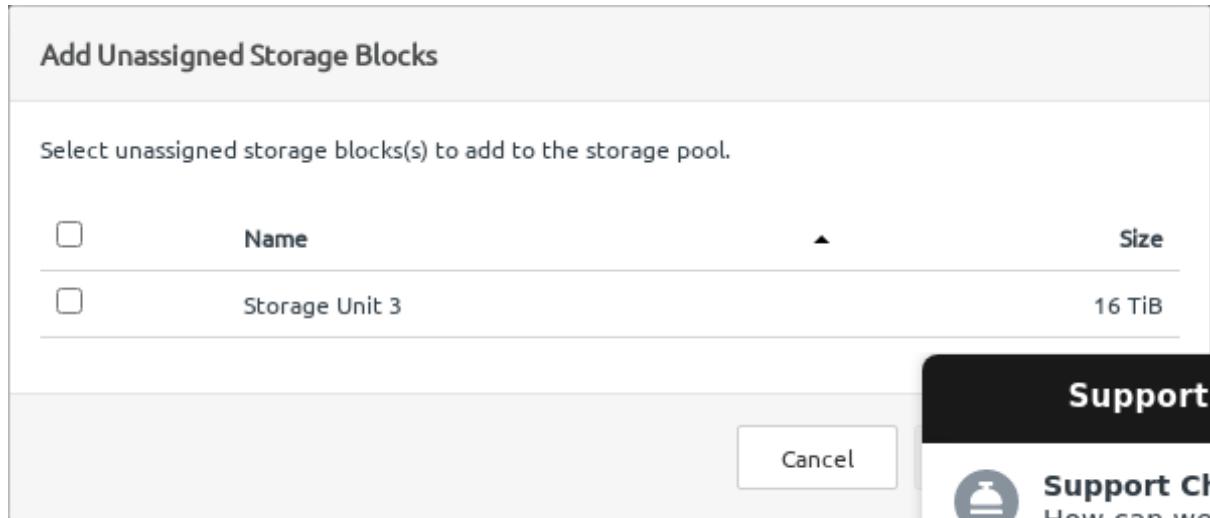

At the bottom left, there is an 'Activity' tab selected, followed by 'Allocations', 'DR Snapshots', and 'Resources & Connectivity'. The 'Activity' tab contains two line charts: 'Physical Used' and 'Virtual Used', both showing data over time from 10:26am to 11:26am. A red box highlights the 'Physical Used' chart. On the right side of the activity tab, there is a text input field with placeholder text 'Type a message here...' and a toolbar with icons for file, link, and ellipsis.

    ↳ main/webapp/app/flash-pool/components/flash-pool-allocation-
    ↳ tab/flash-pool-allocation-tab.component.ts
```

### 1.11.6.1 Sample screenshot

The screenshot shows a storage management interface for 'Flash Pool 1'. At the top, there are two migration zones: 'DevOpsMigrationZone' and 'QaMigrationZone'. Below this is a 'Storage Overview' section with a circular progress bar. It displays the following data:

Physical Usable Capacity	16 TiB
Physical Used	800 GiB
Virtual Capacity (projected)	16 TiB
Virtual Allocated	100 GiB
Virtual Allocated %	1%
Virtual Used	800 GiB
Data Saving Ratio	—

Application Instances: 1 Running, 0 Paused, 1 Shut Down, 0 Unresponsive.

The 'Allocations' tab is selected. A red box highlights the 'Allocations to Virtual Datacenters' section. This table shows:

Name	Storage		ST BW (Mbps)
	Allocated	Usage*	Read
Datacenter 1	100 GiB	—	—

\* Storage usage as seen by the virtual datacenter.

A support chat window is open on the right, showing a message from 'Support Chat' asking 'How can we help?'. The response 'Chat started' is shown, along with a message from 'Customer Service' saying 'Welcome! Can we help you with anything?'. A message input field says 'Type a message here...'.

  - [mwc-register-storage-block](#)
  - [mwc-storage-block-table](#)

#### 1.14.16.1 Sample screenshot

The screenshot shows a user interface with a table and a sidebar. The table has columns for Name, IP Address(es), CPU (cores), Memory, and NVMe. The first row shows a Linux Application with IP 192.168.1.10, 2 cores, 1 GiB memory, and no NVMe. The second row shows a Windows Application - NF... with IP 2.2.2.2, 2 cores, 1 GiB memory, and no NVMe. A red box highlights the IP address column for the Linux application. To the right is a sidebar titled 'Support Chat' with a message 'How can we help?'. It shows a history of messages: 'Chat started' and 'Customer Service'.

Name	IP Address(es)	CPU (cores)		Memory		NVMe
		Prov.	% vCPU	% CPU	Prov.	
Linux Application	192.168.1.10	2	—	—	1 GiB	—
Windows Application - NF...	2.2.2.2	2	—	—	1 GiB	—

  - `mwc-power-off-storage-block-modal`
  - `mwc-restart-storage-block-modal`

### 1.19.10.1 Sample screenshot

The screenshot shows a user interface for managing storage pools and applications. At the top, a message says "Flash Pool 1: Disconnect from DevOpsMigrationZone". Below this, a section titled "Applications in Migration Zone" contains a table with the following data:

Application	Migration Zone	Storage Pool	Virtual Data	
Windows Application - NFV Insta...	DevOpsMigrationZone	Flash Pool 1	Datacenter	<b>Support ThinkAgile CP ↗</b>

A red box highlights the entire table. To the right of the table is a "Support Chat" sidebar with the message "How can we help?". Below the table, a message says "Click 'Continue' to disconnect DevOpsMigrationZone from storage pool Flash Pool 1." On the far right, there is a "Chat started" message and a "Customer Service" link.

#### 1.19.16.1 Sample screenshot

The screenshot shows a web-based management interface for application instances. At the top, there's a header with a back arrow, a search bar, and a user profile icon. Below the header, a navigation bar includes 'Applications', 'Compute', 'Storage', 'Networking', and 'Logs'. A sidebar on the left lists 'Compute', 'Storage', 'Networking', and 'Logs' with corresponding icons. The main content area displays a table titled 'Application Instances' with two rows:

Name	IP Address(es)	Prov.	% vCPU	% CPU	Pr.
Linux Application	192.168.1.100	—	2	—	1
Windows Application - NF...	192.168.1.101	2.2.2.2	2	—	1

Below the table are buttons for 'Start/resume', 'Pause', 'Shutdown', and '...'. A status bar at the bottom indicates '0 selected'. To the right of the table, a sidebar titled 'Support ThinkAgile CP' contains a 'Support Chat' section with a message from 'Customer Service' asking 'How can we help?'. The sidebar also shows a message 'Chat started'.

#### 1.19.17.1 Sample screenshot

The screenshot shows a user interface for managing applications. On the left, there is a table with two rows. The first row contains a radio button, a 'Linux Application' name, and two small icons. The second row contains a checkbox, a 'Windows Application - NF...' name, and one icon. The table has columns for Name, IP Address(es), CPU (cores), Memory, and Network. The second row's IP column shows '2.2.2.2'. The right side of the screen features a dark sidebar titled 'Support Chat' with the subtext 'How can we help?'. It includes a message 'Chat started' and a 'Customer Service' section with three dots.

Name	IP Address(es)	CPU (cores)			Memory		Network
		Prov.	% vCPU	% CPU	Prov.	Load	
<input type="radio"/> Linux Application		—	2	—	—	1 GiB	—
<input type="checkbox"/> Windows Application - NF...		2.2.2.2	2	—	—	1 GiB	—

### 1.19.23.1 Sample screenshot

The screenshot shows a user interface for managing disaster recovery. At the top, a green 'DR' icon indicates 'Disaster Recovery Enabled'. Below it, 'DR Storage Pool: Flash Pool 2' and 'Latest Snapshot: DR Folder 1 (Jul 14, 2020 12:37 PM)' are displayed. A 'Support Chat' window is open, showing a welcome message: 'Welcome! Can we help you with anything?'. The main area shows a table of 'DR Snapshots' for 'Flash Pool 2', listing four entries: 'DR Initial Snapshot (from template)', 'DR Snapshot 1', 'DR Snapshot 2', and 'DR Folder 1'. The first entry is highlighted with a red border.

Snapshot Name	Scheduled Time
* DR Initial Snapshot (from template)	Jul 14, 2020 12:37 PM

**Properties**

- Instance Name: [Input field]
- Description (Optional): [Input field]

**Virtual Datacenter**

Select a virtual datacenter for the application instance, then complete the resource profile for networking, storage, and compute.

- Virtual Datacenter: Datacenter 1
- Application Group: None

**Storage**

- Storage Pool: Select one
- Virtual Disks (vDisks):
 

Name	Size	IOPS Limit	Bandwidth Limit	...
Disk 0	50 GiB	—	—	...

**Compute**

### 1.19.94 mwc-installer-form

- ☞ class: `InstallerFormComponent`
- ☞ used by:
  - `mwc-application-form`

### 1.19.94.1 Sample screenshot

The screenshot shows a configuration form for a virtual machine instance. The main interface is divided into several sections:

- Properties:** Fields for "Instance Name" and "Description (Optional)".
- Virtual Datacenter:** A dropdown menu set to "Datacenter 1".
- Application Group:** A dropdown menu set to "None".
- Storage:** A dropdown menu set to "Select one".
- Virtual Disks (vDisks):** A table with one entry:

Name	Size	IOPS Limit	Bandwidth Limit	...
Disk 0	50 GiB	—	—	...
- Compute:** A table with columns for CPU, Memory, and Disk.

A floating support chat window titled "Support ThinkAgile CP" is open, showing a message history:

- Customer Service: "Chat started"
- Support Chat: "Welcome! Can we help you with anything?"

A message input field at the bottom of the chat window says "Type a message here...".

**Figure 1.76:** mwc-installer-form

    ↳ src/main/webapp/app/application/components/forms/instance-
   
    ↳ settings-form/instance-settings-form.component.ts

### 1.19.95.1 Sample screenshot

The screenshot shows a configuration form for an application instance. It includes sections for Properties, Virtual Datacenter, Storage, and Compute, each with various input fields and dropdown menus. A support chat sidebar is also present.

**Properties**

- Instance Name: [Input field]
- Description (Optional): [Input field]

**Virtual Datacenter**

- Select a virtual datacenter for the application instance, then complete the resource profile for networking, storage, and compute.
- Virtual Datacenter: Datacenter 1
- Application Group: None

**Storage**

- Storage Pool: Select one
- Virtual Disks (vDisks):
 

Name	Size	IOPS Limit	Bandwidth Limit
Disk 0	50 GiB	—	—

**Compute**

- Provisioning:
 

CPU	2	cores	Memory	4	GiB
-----	---	-------	--------	---	-----

**Support Chat**

- How can we help?
- Chat started
- Customer Service
- Welcome! Can we help you with anything?
- Type a message here...

**Figure 1.77:** mwc-instance-settings-form

## 1.19.96 mwc-local-snapshots-status-icons

☞ class: LocalSnapshotsStatusIcons

### 1.19.96.1 Sample screenshot

The screenshot shows a table of local snapshots for 'Flash Pool 1'. The table has columns for Name, Snapshot Time, Incremental Size, and Replication Status. A red box highlights the Replication Status column. A black overlay window titled 'Support ThinkAgile CP' contains the text 'Support Chat' and 'How can we help?'. Below the table, a message says 'Chat started'.

Name	Snapshot Time	Incremental Size	Replication Status
Base Application	—	—	<span style="background-color: red; color: white;">Revert   ...</span>
L ⓘ Snapshot 3	Jul 14, 2020 12:37 PM	100

☞ class: `VirtioDriversConfigurationComponent`

☞ used by:

- `mwc-import-application-template-from-vmdk`

### 1.19.122.1 Sample screenshot

The screenshot shows the 'Import VM' configuration interface. It includes fields for saving the template, provisioning resources, and defining VM properties. A support chat sidebar is also present.

**Template Properties**

- Save to: Select one
- Template Name: [Input field]
- Description (Optional): [Input field]

**Provisioning**

CPU	2	cores
Memory	2	GiB

**VM Properties**

- VM OS Type: Select one
- VM OS Version: Select one

**Virtual Disks**

Select the root virtual disk files (vmdk, vhd, vhdx, ova, img, raw, vdi, qed or qcows2) of the VM you wish to import.

### 1.23.2.1 Sample screenshot

The screenshot shows the 'Edit Application Template' interface. At the top, it says 'Edit Application Template'. Below that is a section titled 'Template Properties'.

**Template Name:** linuxTemplate

**Description:** Template with a Linux operating system

**Provisioning:** CPU: 2 cores, Memory: [unspecified]

**Application Disk and Boot Orders:**

The template's application disks and boot order are listed below. Drag and drop to change boot order.

**BOOT ORDER:**

Order	Disk	Type
1	disk 1	Storage Disk - 2 GiB
2	disk 2	Storage Disk - 2 GiB

A support sidebar is visible on the right, featuring a 'Support' button, a 'Support Case' section with a message 'How can we help you?', a 'Customer Support' section, and a 'Welcome' message 'Welcome back! How can we help you today?'. A text input field 'Type a message...' and a 'Cancel' button are also present.

### 1.26.10.1 Sample screenshot

The screenshot shows the AlphaCompute interface for a host named 'AlphaCompute'. The main view displays CPU and Memory usage, application instances (1 Running), and various status indicators. A red box highlights the 'Properties' section, which contains the following configuration details:

Migration Zone	DevOpsMigrationZone	L1TF Mitigation
Compute Category	Default	Compute Node OS
Compute Tags	quickFox, speedDemon	Compute Service
Description	once or twice	Firmware
Date Registered	Oct 20, 2015	Reset Manager Password

A support chat window titled 'Support ThinkAgile CP' is open, showing a message from the support team: 'Welcome! Can we help you with anything?'. The interface includes tabs for 'Activity' and 'Information', and an 'Actions' button in the top right corner.

### 1.27.2.1 Sample screenshot

The screenshot shows the Lenovo Cloud Marketplace interface. On the left, there is a sidebar with filters for PUBLISHER (Lenovo), OPERATING SYSTEM (Linux, Other, Windows), and CATEGORY (None). The main area is titled "Lenovo Cloud Marketplace" and displays a grid of application templates. Each template card includes the name, publisher (Lenovo), operating system, and version. A "Release Date" dropdown menu is visible at the top right. A "Chat" button is located in the center-right of the grid.

Publisher	Operating System	Category	Name	Description
